Stands

Standard shell scheme hire includes back and side free standing partition walls, carpeted floor and daily cleaning.

The shell scheme is the Octanorm system (diagrams on request). This is a modular system of aluminium poles and beams holding 4mm infill panels. These form the walls of the stands. The fascia is formed of the same system, 175mm deep. The wall panels are finished with white foamex. There is an open grid ceiling of 70mm beams fixed diagonally over the stand, 2430mm and the underside of the fascia panel 2325mm.

The aluminium components are finished in white using a powder coating system. The wall panel 2500mm high x 990mm wide is the overall size of panels when fitted with poles and beams. The face size of the panels is 950mm wide x 2340mm high. The poles are 40mm in diameter projecting forward 18mm.

You cannot fix anything to the wall panels using nails, staples or screws. Lightweight polyboard or card panels can be fixed with doubled sided Velcro or Blu-tac. Support brackets and chain packs must be used to hang heavier items.

Risk Assessment – Compulsory for all exhibitors

An exhibition stand is workplace covered by health and safety legislation. As the exhibitor, it is your responsibility to ensure that a suitable and sufficient risk assessment is completed. Failure to do so could lead to delays, or ultimately, the closure of your stand.

This risk assessment template is for a simple shell scheme exhibition stand which does not require any structural approval from the organizer or the venue. More complex stands will require a more detailed risk assessment and if you are in any doubt, you should contact the organiser.

All exhibitors must complete the [Risk Identification form](#) by **Friday 14 September 2018.**

If you answer YES to any questions within the Risk Identification form, then you will need to complete the [Risk Assessment \(detailed\) form](#) by **Friday 14 September 2018.**

Please note that both forms have the same completion deadline, so we strongly advise that you complete the Risk Identification form with enough time to complete the Risk Assessment (detailed) form ahead of the deadline.

Health and Safety Form – Compulsory for all exhibitors

Exhibitors are required to read, complete and electronically sign a health and safety statement.

Exhibitors must [complete the Health and Safety form](#) by **Friday 14 September 2018**. Please Note, stand construction will not be allowed to commence until this form has been returned

9. Event postponement or abandonment – BMJ expressly excludes any liability in respect of any actions, claims, losses (including without limitation consequential losses), damages, costs or expenses whatsoever which may be brought, suffered or incurred by the Exhibitor/Sponsor or its employees, sub-contractors or agents as a result of the prevention, postponement or cancellation of an Event or the Venue becoming wholly or partially unavailable for the running of the Event.
